**REPORT ON REVIEW OF INTERIM SEPERATE FINANCIAL STATEMENTS  
TO THE BOARD OF DIRECTORS OF TALAAT MOSTAFA GROUP HOLDING  
COMPANY "TMG HOLDING" (S.A.E)**

**Introduction**

We have reviewed the accompanying interim separate financial position of **Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)** as at 31 March 2019 and the related separate statements of income (profit or loss), comprehensive income changes in equity and cash flows for the three months ended in that date, and summary of the main accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim financial statements in accordance with the Egyptian accounting standards, our responsibility is to express a conclusion on these interim separate financial statements based on our review.

**Scope of review**

We conducted our review in accordance with the Egyptian Standard on review engagement no. (2410) "Review of interim financial information performed by the independent Auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian standards on auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Consequently; we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that accompanying interim separate financial statements are not prepared, in all material respects for the separate financial position of the company at 31 March 2019, and its financial performance and cash flows for the three months ended in that date in accordance with Egyptian accounting standards.

As indicated in note (4) the company has investments in subsidiaries and prepares consolidated financial statements as of 31 March 2019 for better understanding of the company's financial position as of 31 March 2018 and its financial performance and its cash flows for the period then ended, the matter necessitates reference to the consolidated financial statements.

## Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### 1 BACKGROUND

- Talaat Mostafa Group Holding TMG Holding S,A,E, was established on 13 February 2007 under the provisions of law 95 of 1992 and its executive regulations and registered in Egypt under Commercial Registration numbered 187398 by date 3 April 2007, and the company period is 25 years.
- The main objective of the Company is participating in the incorporation of shareholding companies or participating in the capital increase of those companies.
- The company headquarter and legal place is 36, Mosadek St, Dokki – Giza – Arabic republic of Egypt,
- The financial statements for the period ended 31 March 2019 were approved on 13 May 2019 according to the board of directors' resolution issued on the same date.

#### 2- Basis of preparing the financial statements and the significant accounting policies

- The financial statements of the holding company and the subsidiaries have been prepared according to the Egyptian Accounting Standards and the prevailing laws and local regulations.
- The financial statements have been presented in Egyptian Pound.
- The financial statements are prepared under the historical cost convention modified to include the measurement at of the fair value of financial investment, and financial assets valued at the fair value through the profit and losses.

#### 2-1 Summary of the significant accounting policies

##### Foreign currency transaction translation

The financial statements are prepared and presented in Egyptian pound, which is the company's functional currency.

Transactions in foreign currencies are initially recorded using the exchange rate prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rate prevailing at the balance sheet date; all differences are recognized in the statement of income.

Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rates prevailing at the dates of the initial recognition.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair value is determined.

##### Property, plant and equipment

Property, plant and equipment are stated at historical cost net of accumulated depreciation and accumulated impairment losses, Such cost includes the cost of replacing part of the plant and equipment when that cost is incurred, if the recognition criteria are met, Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied, All other repair and maintenance costs are recognized in statement of income as incurred.

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

	Years
Motor Vehicles	5
Computers & software	3-8
Furniture	5-10
Tools	3-5

## Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal any gain or loss arising on derecognizing of the asset is included in the statement of income when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end. The post-acquisition costs to be capitalized only to increase the future economic benefit related to the fixed assets and to be accounted for as a new asset, the book value of the replaced or renewed assets to be derecognized and all other expenditures to be recorded as expenses in the income statement.

The Company assesses at each balance sheet date whether there is an indication that fixed assets may be impaired, Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, Impairment losses are recognized in the statement of income.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized, The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years, Such reversal is recognized in the statement of income.

#### Investments

##### Investment in subsidiaries

Investments in subsidiaries are investments in entities which the company has control, Control is presumed to exist when the parent owns, directly or indirectly through subsidiaries more than half of the voting power of the investee, unless in exceptional circumstances, it can be clearly demonstrated that this is not the case.

Investments in subsidiaries are accounted for at cost inclusive transaction cost and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of income for each investment separately, Impairment losses to be reversed in the period when occurred, and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

##### Investments in associates

Investments in associates are investments in entities which the company has significant influence and that is neither a subsidiary nor an interest in a joint venture, except for the investment that reclassified as non-current asset held for sales according to Egyptian accounting standard No, (32), Significant influence is presumed to exist when the company holds, directly or indirectly through subsidiaries 20 % or more of the voting power of the investee, unless it can be clearly demonstrated that this is not the case.

Investments in associates are recorded in cost according paragraph G from article 13 from Egyptian accounting standard (18) when public use consolidated financial statements are prepared, In case the investment is impaired, the carrying amount to be adjusted by the value of this impairment and is charged to the statement of income for each investment separately.

Impairment losses to be reversed in the period when occurred, and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

##### Available-for-sale investments

Available for sale investments are those non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held to maturity investments or investments at fair value through profit or loss.

Available for sale investments are initially recognized at fair value inclusive direct attributable expenses.

After initial measurement, available for sale investments are measured at fair value with unrealized gains or losses recognized directly in equity until the investment is derecognized, at which time the cumulative gain or loss recorded in equity is to be recognized in the statement of income, Impairment losses to be reversed in the period when occurred, and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

If the fair value of equity instrument cannot be reliably measured, the investment is carried at cost.

## Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

##### Financial assets at fair value through profit or loss

Investments at fair value through profit and loss are financial assets classified as either held for trading acquired for the purpose of selling in the near term or financial assets designated upon initial recognition at fair value through profit and loss.

Investments at fair value through profit and loss are initially recognized at fair value including the direct attributable expenses,

Investments at fair value through profit and loss are carried in the balance sheet at fair value with gains or losses recognized in the statement of income.

Gain or loss of investment is recognized at fair value through income statement.

##### Financial assets held to maturity

Investments in financial assets held to maturity with fixed or determinable payments that are quoted in an active market and the management has the intention and capability to hold it to maturity,

Up on the initial measurement of the financial assets, it will be recorded with its fair value including the direct costs.

The investments to be recorded at amortized cost by using the effective rate method carried, Gains or losses due to execute the assets or due to the impairment of the assets to be recognized in the statement of income,

Gain or loss of investment is recognized in profit or loss when the investments are derecognized or impaired impairment is recovered, as well as through the amortization process.

##### Non-current assets held for sale

Non-current assets held for sale is the non-current assets that is expected to regain its book value basically from sale agreement not from the use of those assets.

Those assets are measured by the lower of the book value or the fair value after deducting the sales cost.

Non-current assets held for sale in case of impairment, the carrying amount to be adjusted by the value of this impairment and are charged to the statement of income .

Impairment losses to be reversed in the period when occurred, and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

##### Treasury Bills

Treasury bills are initially recognized at cost and the difference between acquiring cost and the realizable value during the period from acquiring date to maturity date stated by strait line method using the actual interest rate.

##### Debtors and Notes Receivable

Accounts receivable and other receivables are stated at original invoice amount net of any impairment losses (if it exists).

Impairment losses are measured as the difference between the receivables carrying amount and the present value of estimated future cash flows, the impairment loss is recognized in the statement of income in the period in which it occurs.

Impairment loss is recovered in the period in which it occurs to only the book value that was impaired before unless the impairment loss is recognized.

## Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)

---

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

##### Cash and cash equivalents

For the purpose of preparing the cash flow statement, the cash and cash equivalent comprise cash on hand, current accounts with banks, and time deposits maturing and treasury bills within three months less bank overdraft balances (if-exist).

##### Credit balances and accruals

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

##### Separation between short and long term assets and liabilities

Assets and liabilities which worth collected during the year after the date of financial statements be included within current assets and current liabilities either the assets and the liabilities that collectible date exceed the year date of financial statements be included within long-term assets and long-term liabilities.

##### Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made, Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate.

##### Revenue recognition

Revenue from the share of results in the subsidiaries to be recognised to the extent of the company's share of dividend of the investees after the acquisition date and from the date of declaring dividend by the general assembly of those companies,

The interest income of the financial instruments is recorded by the effective rate methods except for the financial instruments classified as trade investments or at fair value through profit and loss.

##### Legal reserve

According to the Company's article of association, 5% of the net profits of the year are to be transferred to the legal reserve until this reserve reaches 50 % of the issued capital, the reserve is used upon a decision from the General Assembly Meeting based on the proposal of the Board of Directors.

##### Accounting estimates

The preparation of financial statements in accordance with Egyptian Accounting Standards requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the financial years, Actual results could differ from these estimates.

##### Impairment of Assets

###### a- Impairment of financial assets

The Company regularly assesses whether there is an indication that an asset could be impaired, The impairment loss of a financial asset that was measured with the amortized cost is to be measured as the different between the amortized cost of the book value and the present value of the projected cash flow by using the effective rate.

The impairment loss related to financial assets available for sale to be calculated by using the present fair value, Impairment test is applied to the significant financial assets to the level of each asset.

## Talaat Mostafa Group Holding Company "TMG Holding" (S.A.E)

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

Impairment loss is recognized in the income statement, The remaining financial assets are estimated according to the groups level that have the same credit risk characterises, Any subsequent reversal of an impairment loss is recognized in profit and loss, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

If the available for sale asset is impaired, an amount comprising the difference between its cost and its fair value less any impairment loss previously recognised in the income statement is transferred from equity to income statement, Reversal in respect of equity instruments classified as available for sale is recognised directly in the equity.

#### b- Impairment of non-financial assets

The company assesses at each reporting date wither there is an indication that an asset may be impaired, An asset's recoverable amount is higher of an asset's or cash – generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre –tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

Impairment losses of continuing operations are recognised in the income statement in those expenses categories consistent with the function of impairment asset except for the property previously revaluated where the revaluation was taken to equity; In this case the impairment is also recognised in equity up to the amount of any previous revaluated.

A previously recognized impairment loss is reversed when there is a change in the recoverable amount of the asset to the extent of the previously recognized loss.

#### Treasury stocks

Treasury stocks (company stocks) are recorded with the acquisition cost and deducted from the owners' equity in the balance sheet; any gain or loss proceeds of buying or selling these treasury shares are being recorded in the owner's equity.

#### Employees' directors' compensation and motivation

Employees and manager's compensation and motivation system is according to the company's articles of association and applied with proposal of the board of directors by one of the following methods:

- Giving the employees free shares
- Giving the employees shares with special price
- Giving promise of sale of the shares after specific period and according to certain conditions that stated in the company promise of sale

#### Income tax

Income tax is calculated in accordance with the Egyptian tax law.

#### Current income tax

The income tax assets and liabilities for the current and previous periods are evaluated according to the expected amount to be recovered from or paid to tax authority.

---

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

##### Deferred income tax

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the balance sheet (accounting base) using the applicable tax rate.

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Current and deferred income tax are recorded as revenue or expense in the income statement except for the results from transaction or event in the same period or other period to be recorded in the equity.

##### Cash flow statement

The statement of cash flows is prepared using the indirect method; for the purpose of preparing the cash flow statement, the cash and cash equivalent comprise cash on hand, current accounts with banks, and time deposits maturing and treasury bills within three months less bank overdraft balances (if-exist).

##### Related party transactions

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties, pricing policies and terms of these transactions are approved by the boards of directors.

##### Employee's pension plan

The company corporate in the social insurance system for its employee under provisions of social insurance law 79 of year 1975 and this corporation incurs to the income statement according to the principal of merit.

##### Borrowing

Borrowings are initially recognized at the value of the consideration received, Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding twelve months after the balance sheet date, then the loan balance should be classified as long term liabilities.

##### Borrowing costs

Borrowing costs are recorded in the statement of income as financing expenses except the borrowing costs directly related to the acquisition, construction or production of a qualifying assets which is included as part of the cost of the asset, the borrowing cost amount that will be capitalized is determined based on the actual borrowing cost, Suspend capitalisation of borrowing costs during extended periods in which it suspends active development of a qualifying asset.

Cease capitalizing of the borrowing costs when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

##### Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of income in the financial year in which these expenses were incurred.

##### Dividends

Dividends are recognized as an obligation for the period when the general assembly issues the decision.

##### Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the period attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the period (if it exist).

### NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

#### Significant Accounting Policies (continued)

##### Fair values

Fair Value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between two participants in the market at the measurement date, And the fair value measurement is assumed that that the transaction will be occur in the main market of the asset or the liability or the market with the most benefit to the asset or the liability.

The fair Value measured using the assumptions that the participant in the market will use to price the asset or the liability, assuming that the participants will work for their economic benefits.

The fair value measurement of non-financial asset considers the market participant ability to generate economic benefits but using the asset to the maximum acceptable level or by selling the asset to anther market participant who will use the asset with its maximum power.

For the current assets in an active market, the fair value is measured base on the quoted market prices,

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted equity investments, fair value is determined by reference to the market value of a similar investment or is based on the expected discounted cash flows.

The company uses the appropriate valuation methods, in accordance to the related circumstances, in which sufficient information available to measure the fair value, therefore use the related inputs that can be considered and minimise the use of the inputs that cannot be considered.

The assets and liabilities that are measured at fair value or that disclosed in the financial statements in major categories are classified as all:

- Level one: using the quoted prices of the assets and liabilities in active markets,
  - Level two: using the inputs that can be considered directly (quoted price) or indirectly (extract from the prices) to the asset or the liability.
  - Level three: using the valuation methods that use inputs not based on the market information,
- Regarding The assets and liabilities that will be recognize in the financial statement on regularly basis, the company determine wither there is a transfer from one level to another that occurs due to the reclassification of those items at the end of reporting period.

For fair value disclosures, the company classified its assets and liabilities based on their nature, characterise and related risks and to the above displayed levels.

NOTES TO THE SEPARATE INTERIM FINANCIAL STATEMENTS

31 March 2019

**25 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continue)**

**Exposure to interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates, The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates and interest bearing time deposits.

Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

Since the interest rate on the loans and financial obligations is an inflating interest rate, the effect of the change in the interest rate will display in the financial statements of the company.

**C- Liquidity risk**

Liquidity risk is the risk of the deficit in cash to pay the short-term liabilities and this risk is considered limited due to continues plans prepared by the company to find the financial alternative to reduce the risk.
