REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS TO
THE BOARD OF DIRECTORS OF TALAAT MOSTAFA GROUP HOLDING COMPANY
"TMG HOLDING" (S.A.E)

Introduction

We have reviewed the accompanying interim consolidated financial position of **Talaat Mostafa Group Holding Company "TMG Holding"** (S.A.E) as at 30 June 2020 and the related statements of consolidated income (profit or loss), comprehensive income, changes in equity and consolidated cash flows for the six months ended in that date, and summary of the main accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim consolidated financial statements in accordance with the Egyptian accounting standards, our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the Egyptian Standard on review engagement no. (2410) "Review of interim financial information performed by the independent Auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian standards on auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Consequently; we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that accompanying interim consolidated financial statements are not prepared, in all material respects for the financial position of the company as at 30 June 2020, and its financial performance and cash flows for the six months ended in that date in accordance with Egyptian accounting standards.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

30 June 2020

Significant Accounting Policies (Continued)

Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and any impairment in value, Depreciation is calculated on a straight line basis over the estimated useful lives of the assets as follows:

	Years
Buildings & constructions	20-80
Motor Vehicles	5
Tools & equipment	3 - 8
Furniture and other assets	5- 10
Computers	3 - 8
Marina Equipment's	2 - 10

Projects under construction are depreciated when it is ready for use in the place and the condition of operating, then to be reclassified to the fixed assets category.

Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of property, plant and equipment, all other expenditure is recognised in the Consolidated Interim income statement as the expense is incurred.

Intangible assets

Intangible assets are initially be recognized by cost

After the internal recognition, intangible assets are recorded by cost deducting the accumulated amortization and impairment losses.

Intangible assets represent the software's and related licenses and to be amortized with straight line basis methods over the estimated useful lives (5 years).

Goodwill

Goodwill represents the increase of the acquisition cost of the shares of the subsidiaries companies with the company share in the fair value of the net assets of those companies at the date of acquisition, Goodwill results from purchase subsidiaries is recorded as noncurrent assets and the goodwill results from purchase investments in associates recorded as investments in associates, at the end of each financial year the goodwill is tested for impairments and to be displayed at cost after deducting the impairment loss if exist.

Project under construction:

Projects under construction represent the amounts that are paid for the purpose of constructing or purchasing fixed assets until it is ready to be used in the operation, upon which it is transferred to fixed assets, Projects under construction are valued at cost.

Investment Property

Investment properties are the real estate's (Buildings, Lands or both) that are kept for renting or increase in its value; they are measured initially at cost, including transaction costs.

Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date, Gains or losses arising from changes in the fair values of investment properties are included in the income statement in the year in which they arise.

Investments

Investments in associates

Investments in associates are accounted for using the Equity method except for when investment are classified as available for sale according to the Egyptian accounting standards No, 32 None current assets held for sale and discontinued operations, these associates companies are those companies which the company has a major influence and which are not subsidiaries or joint venture, Investments in associates are recorded in the Balance sheet with cost.

Investments in subsidiaries are accounted for at cost inclusive transaction cost in occurrence to paragraph 10 from Egyptian accounting standard # (18) as an Consolidated Interim financial statements are prepared for public use and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of income for each investment separately, Impairment losses to be reversed in the period when occurred and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

Significant Accounting Policies (Continued)

Available-for-sale investments

Available-for-sale investments are recognised and derecognised, on a trade date basis, when the Company becomes, or ceases to be a party to the contractual provisions of the instrument; they are included in noncurrent assets unless management intends to dispose of the investments within 12 months of the balance sheet date.

Investments designated as available-for-sale investments are initially recorded at cost (except for non-listed investments in the capital exchange market) and subsequently measured at fair value, Changes in fair value are reported as a separate component of equity, Upon elimination of investments, the previously reported as "cumulative changes in fair value" within equity is to be included in the Consolidated Interim income statement for the period, except for impairments loss, and for non-listed investments is to be recorded at cost less impairment loss.

Investments in equity instruments that are not listed in an active market and cannot be reliably measured are measured at cost.

Financial assets at fair value through profit or loss

Investments at fair value through profit and loss are financial assets classified as either held for trading acquired for the purpose of selling in the near term or financial assets designated upon initial recognition at fair value through profit and loss.

Investments at fair value through profit and loss are initially recognized at fair value including the direct attributable expenses.

Investments at fair value through profit and loss are carried in the balance sheet at fair value with gains or losses recognized in the statement of income.

Gain or loss of investment is recognized at fair value through Consolidated Interim income statement.

Financial assets held to maturity

Investments in financial assets held to maturity with fixed or determinable payments with fixed maturity date and the management has the intention and capability to hold it to maturity,

Up on the initial measurement of the financial assets, it will be recorded with its fair value including the direct costs.

The investments to be recorded at amortized cost by using the effective rate method carried, Gains or losses due to execute the assets or due to the impairment of the assets to be recognized in the statement of income.

Gain or loss of investment is recognized in profit or loss when the investments are derecognized or impaired impairment is recovered, as well as through the amortization process.

Non-current assets held for sale

Non-current assets held for sale is the non-current assets that is expected to regain its book value basically from sale agreement not from the use of those assets.

Those assets are measured by the lower of the book value or the fair value after deducting the sales cost.

Non-current assets held for sale in case of impairment, the carrying amount to be adjusted by the value of this impairment and are charged to the statement of income.

Impairment losses to be reversed in the period when occurred, and to the extent to the amount of book value that previously reduced unless the impairment loss was recognized in the previous years.

Treasury Share

Treasury shares are recorded at cost and after the initial recognition, the difference between the acquisition cost and the actual cost during the period from the acquisition date to the maturity date are amortized at fixed instalments using the effective interest rate.

Significant Accounting Policies (Continued)

Development properties

Properties acquired, constructed or in the course of construction for sale are classified as Development properties, Unsold properties are stated at the lower of cost or net sales value, Properties in the course of development for sale are stated at cost, The cost of development properties includes the cost of land and other related expenditure which are capitalized as and when activities that are necessary to get the properties ready for sale are in progress, Net sales value represents the estimated selling price less costs to be incurred in selling the property.

The property is considered to be completed when all related activities, including the infrastructure and facilities for the entire project, have been completed

Management reviews the cost of the work in progress on yearly basis.

Sale and leaseback assets

Gains or losses arising from the difference between financial lease value and book value of an asset subject to the financial lease agreement are amortised over the duration of this agreement. Once the leased asset is repurchased from the lessor upon lease expiry, no gains or losses are charged to the income statement.

Finished units

Finished units are stated at the lower of cost or net realizable value, the Consolidated Interim income statement includes any decreases in the net realized value to the book value.

Inventories

Inventories are stated at the lower of cost or net realizable value,

The inventory of hotels suppleness since the opening of the hotel and required for the operation to be measured in the fair value and the decrease of the fair value to be recorded in the Consolidated Interim income statements.

Accounts receivable, Debtors and notes receivable

Accounts receivable are stated at original invoice amount, all those amounts are reviewed annually to decide wither there is an indicator for impairment possibility in the assets value.

Credit Balances and accruals

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Separation of assets and liabilities to short-and long-term

Assets which worth collected during the year after the date of financial statements is included within current assets either the assets that collectible date exceed the year date of financial statements be included within long-term assets.

Related party transactions

Related party transactions performed by the Company within its normal business transactions are recorded based on the conditions set by the board of directors.

Employees' Pension Plan

The company participates in the social insurance system in accordance to the social insurance laws no, 79 for the year 1975 and its amended and the company share in the social insurance cost to be charged to the Consolidated Interim income statement according to the accrual basis.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made, Provisions are reviewed at the balance sheet date and adjusted to reflect the current best estimate, Where the effect of the time value of money is material, The amount of a provision should be the present value of the expected expenditures required to settle the obligation.

Legal reserve

According to the Company's article of association, 5% of the net profits of the year are to be transferred to the legal reserve until this reserve reaches 50 % of the issued capital, the reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors.

Significant Accounting Policies (Continued)

Revenue recognition

Revenues results from the sale of units are recognized upon the actual or constructive delivery of the units to the buyers, which is the point that all rewards and risks will transfer from the company to the buyers.

The company uses full contract methods in recognize revenue for the all sold units, which required to capitalize the costs under work in progress account till the salable units are completed and delivered to the customer, then revenue is recognized and match it with the related operation cost.

The revenue results from the sale of villas is recognized in the income statement according to the revenue incurred, where the selling amount of the land of the villa will be totally recognized upon choosing the client the land that will be built on it, the selling amount of the building and related construction amount of the villas will be recorded by uses full contract methods in recognize revenue upon delivering the villas to the client.

Hotels revenue is recognized according to the company shares from the profit of the hotels.

Revenue from share profit recorded when there is right to receive it.

Share of results of the associates is recognised according to the equity methods and based on the latest approved financial statements of those associates.

Interest income of the financial instruments is recognised in the Consolidated Interim income statement by using effective interest rate methods except for the financial instruments classified as for trade or financial assets at fair value through profit or loss.

Dividend income from financial assets at fair value through profit or loss or available for sale is recorded when there is right to receive it.

Recording the operational cost

Delivery minutes with the customers of the sellable units to the customers and revenue recognized of those units are the bases to record the operational cost related to those units which includes:

The direct and indirect costs

The construction cost of the sellable units according to the payment certificates of the contractors and suppliers that approved by the technical department of the company is recoded in work in progress account and the costs to be distributed to the sold units according to the following basis:

- Unit share of the land cost and units share of the land cost which was distributed as the land area of each units to the total area of the units in the project
- The unit share from the actual and estimated costs that distributed based on the contracts and invoices of each sector from units , villas and retails in each phase
- The units share from the indirect actual and estimated costs are distributed based on the direct cost of each sector in each phase

Impairment of financial assets

The Company regularly assesses whether there is an indication that an asset could be impaired,

The impairment loss of financial assets that was measured with the amortized cost is to be measured as the different between the amortized cost of the book value and the present value of the projected cash flow by using the effective rate.

The impairment loss related to financial assets available for sale to be calculated by using the present fair value, The remaining financial assets are estimated according to the groups level that have the same credit risk characterises,

Impairment loss is recognized in the Consolidated Interim income statement any subsequent reversal of an impairment loss is recognized in profit and loss, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

30 June 2020

Significant Accounting Policies (Continued)

If the available for sale asset is impaired, an amount comprising the difference between its cost and its fair value, less any impairment loss previously recognised in the Consolidated Interim income statement, is transferred from equity to Consolidated Interim income statement, Reversal in respect of equity instruments classified as available for sale are recognised directly in the equity.

A previously recognized impairment loss is reversed when there is a change in the recoverable amount of the asset to the extent of the previously recognized loss.

Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired, An asset's recoverable amount is higher of an asset's or cash – generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, In assessing value in use, the estimated future cash flows are discounted to their present value using a pre –tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset, Impairment losses of continuing operations are recognised in the Consolidated Interim income statement in those expenses categories consistent with the function of impairment asset except for the property previously revaluated where the revaluation was taken to equity; In this case the impairment is also recognised in equity up to the amount of any previous revaluated.

Treasury stocks

The treasury shares (Company shares) are recorded with the cost and deducted from the owners' equity in the balance sheet, any profit or loss proceeds of disposing these treasury stocks are being recorded within the owners' equity.

Accounting estimates

The preparation of financial statements in accordance with Egyptian Accounting Standards requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the financial years, Actual results could differ from these estimates,

Those estimates are reviewed on regularly basis and any differences in the estimates in the date of examining those estimates will affect only the period under examination and if those differences will affect the current period and the coming periods those differences to be recorded in the current and future periods.

Income tax

Income tax is calculated in accordance with the Egyptian tax law,

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the balance sheet (accounting base) using the applicable tax rate,

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Cash flow statement

The cash flow statement is prepared using the indirect method, for the purpose of preparing the cash flow statements , the cash and cash equivalent include cash on hand , cash at bank , short term deposits , treasury bills with maturity date Year or less deducting the bank overdraft – if any.

Borrowing

Borrowings are initially recognized at the value of the consideration received, Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding twelve months after the balance sheet date, then the loan balance should be classified as long term liabilities.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

30 June 2020

Significant Accounting Policies (Continued)

Borrowing costs

Borrowing costs are recorded in the statement of income as financing expenses except the borrowing costs directly related to the acquisition, construction or production of a qualifying assets which is included as part of the cost of the asset, the borrowing cost amount that will be capitalized is determined based on the actual borrowing cost.

Suspend capitalisation of borrowing costs during extended periods in which it suspends active development of a qualifying asset.

Cease capitalizing of the borrowing costs when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of income in the financial year in which these expenses were incurred.

Cash & cash equivalent

For the purpose of preparing Consolidated Interim cash flow statement, cash and cash equivalent at banks and on hands , time deposits treasury bills maturity date within three months , checks under collection (banks checks and accepted cheeks) and banks overdraft that will be paid on demand that consider a part of the assets management system in the company.

Dividends

Dividends recognized as liability in the period in which the company General Assembly meeting decided to distribute profits.

Fair values

Fair Value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between two participants in the market at the measurement date, And the fair value measurement is assumed that that the transaction will be occur in the main market of the asset or the liability or the market with the most benefit to the asset or the liability.

The fair Value measured using the assumptions that the participant in the market will use to price the asset or the liability, assuming that the participants will work for their economic benefits.

The fair value measurement of non-financial asset considers the market participant ability to generate economic benefits but using the asset to the maximum acceptable level or by selling the asset to another market participant who will use the asset with its maximum power.

For the current assets in an active market, the fair value is measured base on the quoted market prices,

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted equity investments, fair value is determined by reference to the market value of a similar investment or is based on the expected discounted cash flows,

The company uses the appropriate valuation methods, in accordance to the related circumstances, in which sufficient information available to measure the fair value, therefore use the related inputs that can be considered and minimise the use of the inputs that cannot be considered.

The assets and liabilities that are measured at fair value or that disclosed in the financial statements in major categories are classified as all:

- Level one: using the quoted prices of the assets and liabilities in active markets.
- Level two: using the inputs that can be considered directly (quoted price) or indirectly (extract from the prices) to the asset or the liability.
- Level three: using the valuation methods that use inputs not based on the market information,

Regarding The assets and liabilities that will be recognize in the financial statement on regularly basis, the company determine wither there is a transfer from one level to another that occurs due to the reclassification of those items at the end of reporting period.

For fair value disclosures, the company classified its assets and liabilities based on their nature, characterise and related risks and to the above displayed levels.

It presents the real estates that purchased, built or in the construction process to be sold in the ordinary business of the group and to be classified as real estate's development and includes the following components:

- Land.
- Amounts paid to contractors including the cost of infra structures.
- Capitalized interests, designs, planning, site preparation, legal expenses and any indirect costs.
- The cost of the infra structures are allocated to the projects and present part of the estimates cost to complete the project, this estimated costs is used to determine the cost of the recorded revenue.
- The duration of the projects is more than 10 years.
- According to the contract with the new urban communities' authority, Arab company for projects and urban development received 8,000 Fadden to build Madinaty project on several phases against 7% of the total built up area of the apartments' buildings of the land project.
- The company recognizes the cost of the land as an asset against the obligations due to the new urban communities' authority in accordance to the estimated cost calculated according to the expected delivered units related to the phase that work started in it.
- In 2010 a verdict was issued for the case raised against the new urban communities' authority to cancel the contract of selling the land of Madinaty, A committee was formed by a resolution from the prime minster to adjust the legal situation of the land of Madinaty , the committee reached to a decision to resell the land of Madinaty to Arab company for projects and urban development with a new contract dated 8 November 2010 and the in kind amount should not be less than LE 9.979 billion, based on that the value of the land of Madinaty recorded above , will be considered up on signing the final contract of the land and in accordance to the actual cost that will be bearded due to the execution of the new contract, the project includes six phases and it is required to have the approval of the new urban communities' authority before start any phase and therefore the cost of the first phase of LE 4.2 billion is recorded and the estimated cost of the remaining phases will be recorded up on the approval of the new urban communities' authority and start the execution of that phase.
- A verdict was issued to accept the requests of the case no, 15777 for the year 65 J to accept the form and the subject to recognize the contract dated 8 November 2010 between the new urban communities' authority and the Arab Company for projects and urban development, and the court stated that the high committee for valuation in the general authority for governmental services to reevaluate the area that not yet booked and sold to the others.
- The Arab company for projects and urban development (one of subsidiaries) signed on 25 February 2015 the agreement with the New Urban Communities Authority (NUCA), and the adoption of the Cabinet to this agreement, Under this agreement, all disputes related to interpretation of mechanism, implementation, and determination of the 7% of the total built up area has been resolved, which present in-kind payment - the in kind amount should not be less than LE 9,979 Billion due to NUCA for the value of Madinaty land based on the contract concluded with NUCA in 2010 (all terms and conditions remain the same and unchanged), The 7% is calculated at 3,195 million sq., m of fully finished apartments that is currently under delivery and the remaining to be delivered over the life time of the project based on Madinaty land contract mentioned above, It was agreed also to pay a premium for the privilege of increasing the percentage of the regional services area while keeping the remaining components of the project the same, the amount to be paid is LE 1,122 Billion on installments for ten years.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

30 June 2020

35-FINANCIAL RISK MANAGEMENT POLICIES AND OBJECTIVES(Continued)

The Board of Directors of the Parent Company has overall responsibility for the establishment and oversight of the Company's risk management framework, The Company's senior management are responsible for developing and monitoring the risk management policies and report regularly to the Parent Company on their activities,

The Company's current financial risk management framework is a combination of formally documented risk management policies in certain areas and informal risk management policies in other areas,

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, The Company is exposed to credit risk principally from its receivables from customers, due from related parties, other receivables and from its financing activities, including deposits with banks and financial institutions,

Trade and notes receivables

The Company has entered into contracts for the sale of residential and commercial units on an instalment basis, The instalments are specified in the contracts, The Company is exposed to credit risk in respect of instalments due, However, the legal ownership of residential and commercial units is transferred to the buyer only after all the instalments are recovered, In addition, instalment dues are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant,

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer, the demographics of the Company's customer base, including the default risk of the industry and country, in which customers operate, has less influence on credit risk, The Company earns its revenues from a large number of customers,

Other financial assets and cash deposits

With respect to credit risk arising from the other financial assets of the Company, which comprise bank balances and cash, financial assets at amortised cost, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets,

Credit risk from balances with banks and financial institutions is managed by local Company's treasury supported by the Parent Company, The Company limits its exposure to credit risk by only placing balances with international banks and local banks of good repute, Given the profile of its bankers, management does not expect any counterparty to fail to meet its obligations,

Due from related parties

Due from related parties relates to transactions arising in the normal course of business with minimal credit risk, with a maximum exposure equal to the carrying amount of these balances,

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Company's income, Financial instruments affected by market risk include interest-bearing loans and borrowings, and deposits, The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return, The Company does not hold or issue derivative financial instruments,

Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates, The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates and interest bearing time deposits, Interest on financial instruments having floating rates is re-priced at intervals of less than one year, Since the interest rate on the loans and financial obligations is a floating interest rate, the effect of the change in the interest rate will display in the financial statements of the company,

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

30 June 2020

Exposure to foreign currency risk

The company exposed to the foreign currency risk mainly for the long term loans in us dollars, the following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, GBP, SAR and AED exchange rates, with all other variables held constant, The company's exposure to foreign currency changes for all other currencies is not material,

c) Liquidity risk

The cash flows, funding requirements and liquidity of the Company are monitored by local company management supported by the Parent Company, The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings, The Company manages liquidity risk by maintaining adequate reserves and borrowing facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities,

The Company currently has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations,

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments,

36-FAIR VALUE OF THE FINANCIAL INSTRUMENTS

The financial instruments are represented in financial assets and financial liabilities, the financial assets include cash on hand and at banks, account receivable, debtors and other debit balances, the financial liabilities include banks overdrafts, accounts payable, creditors and other credit balances,

The fair value of the financial assets and financial liabilities are not substantially differed from the recorded book value unless it is mentioned,

37-LEGAL STATUS

According to the legal consultant opinion, the following suites that rose from others are properly won:

- Appeal #6913 for the law year 58 from Arab company for projects and urban development in the case # 5087,15777/65 Administration Cairo rose regarding the validate of madinaty land contract dated 8/11/2011 and the reprice the unused part of the land , and the case is suspended till receive the supreme court decision regarding the legibility of the law,
