

TMG Holding reports EGP 2.55 BN consolidated revenue, EGP 371 MN consolidated net profit after minority and EGP 1.2 BN of new sales value for 1 H 2011

Key Operational and Financial Highlights for the consolidated results of January to June 2011

- During 2 Q-11, TMG continued to deliver healthy revenue and profits. The following Q-o-Q comparison is provided to shed the light on the post revolutionary effect on the quarterly performance.
- Total consolidated revenues for 2Q-11 reached EGP 1,172 mn compared to EGP 1,377 mn consolidated revenues for 1Q-11. The decrease in recognized revenue is the combined effect of:
 - (i) a 20% decrease in the revenue recognized from real estate units. Deliveries from historical sales continued per schedule. The Q-o-Q change is due to change in the number and mix of delivered units (less land and commercial units in 2Q compared to 1Q) in addition to reversal of previously booked sales revenue that took place this quarter and therefore affected the figures;
 - (ii) a 50% increase in the hotels revenue reflecting an improvement in hotels operations following the severe decline in tourism flow and tourists spending in 1Q-11 as further explained in "hotels and resorts" operating performance below.
 - (iii) A 60% increase in revenue from services as an outcome of enhanced malls rentals and new revenue generated from operation of infrastructure facilities in Madinaty project.
- Gross Profit for 2Q-11 of EGP 344 mn is almost same as EGP 348 mn for 1Q-11 despite less recognized revenue as the noted improvement in profit generated by hotels and services compensated the relative drop in profit generated from revenue relating to real estate sales. An enhancement of gross profit margin is also witnessed across the three revenue mix components.
- Net profit after tax and minority of EGP 202 mn for 2Q-11 is 19% higher than EGP 169 mn for 1Q-11. The increase in net profit on a Q-o-Q basis is mainly attributable to much less recognized losses relating to revaluation of investments in financial assets and foreign exchange losses relating to hotel borrowing in USD as the effect was already witnessed in 1Q.
- Year on year, total consolidated revenues for 1H-11 reached EGP 2,550 mn compared to EGP 3,530 mn consolidated revenues for 1H-10. The decrease in recognized revenue is the combined effect of:
 - (i) a 28% decrease in the revenue recognized from real estate units. Deliveries from historical sales continued as planned and recognized as revenues accordingly. However, there was a change in revenue mix. less revenues is generated from new villas land sales this year and therefore the decrease in recognized revenue on a Y-o-Y basis;
 - (ii) a 38% decrease in the hotels revenue reflecting the effect of a severe decline in tourism flow and tourists spending in 1Q-11 compared to 1Q-10 on the hotels operations as a result of the current market conditions.
 - (iii) A 72% increase in revenue from services for reasons of enhanced malls rentals and new revenue generated from madianty services as explained above.
- Gross Profit for 1H-11 is EGP 692 mn compared to EGP 1,026 mn for 1H-10 in line with less recognized revenue.

June 30, 2011

- Net profit after tax and minority is EGP 371 mn for 1H-11 compared to EGP 662 mn for 1Q-10. In addition to reasons stated above, the drop in net profit on a Y-o-Y basis is also attributable to an increase in SG&A which now includes the Saudi operations in addition to the Egyptian operations, a decrease in market value of financial investments as a result of the market conditions and an increase in interest expenses in line with the increase in long term debt to finance hotels expansion and acquisitions and finally an increase in foreign exchange loss relating to hotel borrowing in USD.
- At June 30, 2011, the Group's total assets reached EGP 54.3 bn, cash, marketable securities and other liquid investments amounted to approximately EGP 2 bn, representing approximately 3.5% of total assets; and total debt amounted to EGP 3.1 bn, representing approximately 5.8% of total assets. The debt to equity ratio is 1:7 times, reflecting the group's low gearing and prudent cash management.

Operating Performance

City & Community Complexes

EGP 1.2 BN in sales value achieved in 1H 2011

Total new sales of real estate units amounted to EGP 1.2 bn for 1H 2011, compared to EGP 2 bn for the same period last year. Despite the Y-o-Y noted decline, the amount of sales achieved so far is quite satisfactory given the prevailing general market conditions.

Sales continued for all projects but the bulk is generated from madinaty and the extension of Rehab. The latter also witnessed the launch of a new phase for sale "phase 7 apartments" last April and the results were quite successful.

And cancellations remain within normal rates

Total cancellations of the accumulated sales backlog since inception of projects have not exceeded its normal rates of 4.5% up to the end 1H-11. Value of cancelled units is EGP 440 mn in 1H 2011 compared to EGP 557mn for the same period last year.

At June 30, 2011: the backlog of sold but unrecognized units exceeds the level of EGP 21 bn to be recognized as per the units' delivery schedule over the next four years.

Recent updates relating to "Madinaty" legal dispute

On June 21, 2011, the state judicial council issued its report recommending that the court should reject the case filed to scrap the New Madinaty contract. The state Judicial council, after spending months on studying the new contract and various legal documents presented, came to the opinion that the contract is valid and complies with current legal and procedural requirements and therefore recommended that the administrative court should reject the case.

The Judge announced the next hearing on October 4, 2011 to allow lawyers from both sides to read the report and present their cases accordingly before issuing his final verdict.

Our legal advisor believes that the report is a good indication of the solidity of our legal position.
