**AUDITORS' REPORT
TO THE SHAREHOLDERS OF TALAT MOUSTAFA GROUP HOLDING COMPANY "TMG
HOLDING" (S.A.E)
ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Introduction

We have audited the accompanying consolidated financial statements of **TALAT MOSTAFA GROUP HOLDING COMPANY "TMG HOLDING" (S.A.E) ("The HOLDING")** and its subsidiaries refer to ("**The GROUP**") , represented in the consolidated statement of financial position as of 31 December 2025, and the related consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's responsibility for the consolidated financial statements

These consolidated financial statements are the responsibility of the company's management. Management is responsible for preparing and presenting the financial statements fairly and clearly in accordance with Egyptian Accounting Standards and applicable Egyptian Laws, and the resolution and interpretations issued by Financial Regulatory Authority (FRA). Management's responsibility includes designing, implementing, and maintaining internal control related to the preparation and presentation of financial statements. Fair and clear, free of any significant and influential misstatements, whether resulting from fraud or error. This responsibility also includes choosing appropriate accounting policies, applying them, and making accounting estimates appropriate to the circumstances.

Responsibility of auditors

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Egyptian Standards on Auditing and applicable Egyptian laws and interpretations issued by Financial Regulatory Authority (FRA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

AUDITORS' REPORT -(Continued)
TO THE SHAREHOLDERS OF TALAT MOUSTAFA GROUP HOLDING COMPANY "TMG HOLDING" (S.A.E) - (Continued)
ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Opinion

In our opinion, the consolidated financial statements referred to above, give a true and fair view, in all material respects, of the consolidated financial position of the Group as of 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Egyptian Accounting Standards and the related applicable Egyptian laws and regulations, and the resolution and interpretations issued by Financial Regulatory Authority (FRA).

The attached notes (1) to (45) are an integral part of these consolidated financial statements.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

1 Overview of the Company and its activities

- Talaat Mostafa Group Holding TMG Holding S.A.E. ("Company" or "Parent Company") was established on 13 February 2007 under the provisions of law 95 of 1992 and its executive regulation.
- The Company was registered with the commercial register number 187398 on April 3, 2007. The Company has a term of 25 years.
- The main objective of the Company is participating in the incorporation of shareholding companies or participating in the capital increase of such companies.
- The Company's headquarters and legal domicile is 36, Mosadek St., Dokki – Giza – Arabic Republic of Egypt.
- The consolidated financial statements of the Company and its subsidiaries ("Group") for year ended 31 December 2025 were issued on 22 February 2026 according to the Board of Directors' resolution issued at that date.

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED

- The consolidated financial statements are prepared under the historical cost basis, except for the valuation at fair value for investments and investment properties at fair value through other comprehensive income, and financial assets at fair value through profit or loss.
- The consolidated financial statements are presented in Egyptian Pound which is the holding functional currency.

Compliance with the Egyptian accounting standards and the instructions of the Financial Supervisory Authority:

- The consolidated financial statements have been prepared in accordance with Egyptian Accounting Standards considering the Egyptian laws and regulations as well as the instructions of the Financial Regulatory Authority issued in January 2022 regarding "Notes receivable for undelivered units", and the authority's instructions over securitization treatments.

The Financial Regulatory Authority issued and declared a statement for some accounting treatments that address real estate development activity in January 2022. The Supreme Committee for Accounting and Auditing Standards decided to take into consideration the various implementations of real estate development companies to grant an option for a specific transitional year of time, authorizing the accounting treatment for real estate developers recognizing cheques received from customers before delivering the property to the customer based on the sales contracts entered into till 31 December 2023, until the delivery of those properties to the customers, under the following conditions:

- Allocating a separate account, at the date of receiving the cheques from clients before the delivery of the property, which is to be presented within the financial assets in the consolidated statement of financial position as "Notes receivable for undelivered units" and recognizing financial liabilities within the consolidated statement of financial position as "Liabilities against cheques received from customers".
- Recognizing the collected amounts by reducing the cheque balance in "Notes receivable for undelivered units" and transferring an equivalent amount from "Liabilities against cheques received from customers" account to "advances from customers" account.

The provisions of Articles (41) bis to (41) bis 8 of the Capital Markets Law No. 95 of 1992 are applied to securitization treatments within the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.1 CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements For The year Ended 31 December 2024 .

2.2 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at and for the year ended 31 December 2025.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Voting rights and potential voting rights are considered in assessing whether the group has power over another entity. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control over the subsidiary.

The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control over the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Transactions with non-controlling interests

Transactions with non-controlling interests that do not result in the loss of control by the Holding Company are treated as transactions with the equity holders of the group. If a non-controlling interest is purchased, any difference between the amount paid and this non-controlling interest is recorded in equity, and any profits or losses resulting from the disposal of non-controlling interests are also recorded in equity.

Business combination

Business combination shall apply in accordance with EAS (29) only when "business" is acquired. The acquisition accounting method is used for accounting for business combination when subsidiaries are acquired by the Group. The acquisition cost is measured as the fair value of assets, liabilities, equity, and contingent liabilities at the acquisition date. The value of assets, liabilities, and contingent liabilities are determined at fair value regardless of the non-controlling interest share. While excess of the acquisition cost over the Group's share is recognized in the fair value of the net assets as goodwill. In case the acquisition cost is less than the fair value of net assets, the difference is directly recognized in the consolidated statement of profit or loss.

The following steps are followed in preparing the consolidated financial statements:

- a) The investment book value of the Parent Company in each subsidiary is eliminated against the parent company's share in the equity of each subsidiary.
- b) Identifying the non-controlling interest in the net consolidated profit or loss of the subsidiaries during the reported period.
- c) The non-controlling interest is identified within the net assets of the consolidated subsidiaries and separately presented in shareholders' equity of the Holding Company, that is composed of the non-controlling interests' rights in net assets from:
 - (1) The amount of non-controlling interests as at the original date of consolidation.
 - (2) The non-controlling interests' share in the changes in equity since the date of the consolidation.
- d) Intergroup balances and transactions, revenues and expenses are eliminated.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.2 BASIS OF CONSOLIDATION (CONTINUED)

The financial statements of the Parent Company and its subsidiaries used in the preparation of the consolidated financial statements are prepared as at the same date.

The consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events with similar circumstances.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity of the shareholders of the Parent Company, and the non-controlling interests' share in the Group's profit or loss is presented separately.

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Foreign currency translation

Transactions in foreign currencies are recorded at the rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rate prevailing at the consolidated statement of financial position date. All differences are recognized in the consolidated statement of profit or loss.

Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rates prevailing at the date of the initial recognition.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair value is determined.

The financial statements of the subsidiaries denominated in foreign currency are translated to the Parent Company's functional currency which is the Egyptian pound as follows:

- A) Assets and liabilities for each financial position presented are translated at the closing rate at the date of that financial position.
- B) Income and expenses for each statement of profit or loss presented are translated at exchange rates at the dates of the transactions or using average rate for the year, when more practical.
- C) All resulting exchange differences on exchange changes are included as a separate line item within equity, as foreign currency translation differences.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fixed assets and depreciation

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of fixed assets as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the consolidated statement of profit or loss when they arise.

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

Asset description	Years
Premises & constructions	20-80
Means of transport and transportation	5
Tools & equipment	3 - 8
Furniture and fittings	5- 10
Improvements on leased buildings	7
Computers	3 - 8

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizing the asset is included in the consolidated statement of profit or loss when the asset is derecognized.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year-end.

The Company assesses at each financial position date whether there is an indication that fixed assets may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the consolidated statement of profit or loss.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of profit or loss.

On 23 May 2024, a Prime Minister's resolution was issued to amend certain Egyptian Accounting Standards by the addition of annex (H), attached to the resolution, to the Egyptian Accounting Standard No. (13) on the impact of changes in foreign exchange rates included in the Egyptian Accounting Standards accompanying the resolution of Minister of Investment No. (110) of 2015.

The annex aims to establish a special accounting treatment to deal with the consequences of the exceptional economic decision related to moving exchange rate by establishing a temporary additional option to Paragraph No. (28) of the amended Egyptian Accounting Standard No. (13). The paragraph requires currency differences to be recognized in the statement of profit or loss for the year during which these differences arise. Instead, the entity, which has outstanding liabilities in foreign currency at the date of unpegging the exchange rates related to fixed assets, real estate investments, intangible assets (except for goodwill), exploration and valuation assets acquired during the year from the beginning of January 2020 until the date of unpegging the exchange rate, is allowed to recognize the receivable currency differences resulting from the translation of such liabilities in the cost of these assets, at the date of unpegging the exchange rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost.

After initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

Internally generated intangible assets are not capitalized, and expenditure is reflected in the consolidated statement of profit or loss in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The useful life and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets represent computer programs and related licenses and are amortized using the straight-line method over their estimated useful lives.

Goodwill

Goodwill is recognized as an asset at the acquisition date of a business combination. Goodwill is initially measured at cost, which represents the excess of the consideration transferred in the business combination over the Company's interest in the fair value of the assets, liabilities and contingent liabilities recognized.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Assets under construction

Assets under construction represent the amounts that are paid for the purpose of constructing or purchasing a fixed asset until it is ready to be used in the operation, upon which it is transferred to a "fixed asset" item. Assets under construction are valued at cost net of impairment loss (if any).

Investment properties

Policy applicable from January 1, 2024

Real estate investments represent lands and buildings that are held to achieve rent or increase in value, or both, and are initially measured at cost. The cost includes the purchase price and any direct expenses related to it.

Transfers

Transfers to and from investment property occur when—and only when—there is a change in use. A change in use occurs when the property meets or ceases to meet the definition of investment property, and there is evidence of a change in use. Management's intention to change the property's use alone does not constitute evidence of a change in use. For a transfer from inventory to investment property, which will be carried at fair value, any difference between the fair value of the property at that date and its carrying amount is recognized in profit or loss.

When an entity completes the construction or development of a self-constructed investment property carried at fair value, the difference between the asset's fair value at that date and its previous carrying amount is recognized in profit or loss.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2.3 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Disposals

Investment real estate is derecognized (removed from the statement of financial position) upon disposition or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal.

Gains and losses resulting from the discontinuation of use or disposal are determined as the difference between the net disposal proceeds and its net book value and are recognized in profit or loss during the period of discontinuation or disposal.

Measurement after first recognition

The company chose the fair value model for all real estate investments that support obligations that pay a return that is directly linked to the fair value of specific assets or returns from them, including real estate investment, on the basis of their evaluation by experts specialized in evaluation and valuation among those registered in a register designated for that purpose at the General Authority for Financial Supervision at the end of each quarter. The profit or loss arising from the change in the fair value of the real estate investment is recognized in the profit or loss for the period in which this change arises.

Real estate investment is excluded from the books when it is disposed of or when it is withdrawn from use and there are no expected economic benefits from its disposal.

The profits or losses resulting from cessation of use of the property or disposal are determined by the difference between the net proceeds of disposal of the property and its net book value and are recognized in profits or losses during the period of cessation of use or disposal of the asset.

Investments in associates

Associates are those companies over which the Company has a significant influence and are not subsidiaries or joint ventures, except for when the investment is classified as non-current asset held for sale according to the Egyptian accounting standard No. 32. Significant influence is assumed when the Company owns, directly or indirectly through its subsidiaries, 20% or more of the voting rights in the investee, unless it can be clearly demonstrated that this ownership does not represent significant influence.

Investments in associates are accounted for, in the consolidated financial statements, using the equity method. At the initial recognition, the investment is recognized at cost and to be adjusted in the subsequent year with the change of the group's share in the net assets of the associate. The Group's profit or loss includes its share of the associates' profit or loss, and the group's comprehensive income includes its share of the associate's other comprehensive income.

Financial instruments

A financial instrument is any contract that creates a financial asset for one entity and a financial liability or equity instrument for another entity.

Financial assets

Initial recognition and measurement

Upon initial recognition, the financial assets are classified according to both the Company's business model for managing the financial assets, and the contractual cash flow characteristics of the financial asset. The Company initially measures the financial assets at fair value in addition to transaction costs if they are financial assets that are not classified at fair value through profit or loss, except for customer balances, which do not include a significant financing component.

Subsequent measurement

For the purposes of subsequent measurement, financial assets are classified into four categories:

- 1- Financial assets at amortized cost (debt instruments)
- 2- Financial assets at fair value through other comprehensive income with recycling accumulated profits and losses (debt instruments)
- 3- Financial assets classified at fair value through other comprehensive income without recycling accumulated profits and losses on derecognition (equity instruments)
- 4- Financial assets at fair value through profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2.3 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business model assessment

The Company's management assesses the objectives of holding financial assets, which reflects the way the management evaluates the performance of financial investments. The information to be obtained to assess the business model includes the following:

- The Company's investment policy, which is based on achieving returns on investment in the form of interests or selling profits
- The investment year that is commensurate with the management's need for the necessary liquidity
- Reports needed to evaluate investment performance
- The risks that affect the performance of the business model and how to manage it
- The Company's previous experience in dealing with these investments, the duration of their holding and cash flows.
- How to reward investment managers and whether it is based on the fair value of the investment, or the cash flows collected

Financial assets at amortized cost (debt instruments)

The Company classifies financial assets at amortized cost if each of the following two conditions is met:

- The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows.
- The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets are subsequently measured at amortized cost using the effective interest rate method and are subject to impairment. Gains and losses are recognized in the consolidated statement of profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets that are measured at amortized cost include receivables, notes receivable, Company's investments in treasury bills and governmental bonds, other debit balances and due from related parties.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt instruments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the consolidated statement of profit or loss and are computed in the same manner as for financial assets measured at amortized cost. The remaining changes in fair value changes are recognized in other comprehensive income. Upon derecognition, the cumulative fair value change recognized in other comprehensive income is recycled to profit or loss.

Financial assets at fair value through other comprehensive income (equity instruments)

Upon initial recognition, the Group can elect to irrevocably classify its investments in equity instruments as equity

instruments designated at fair value through other comprehensive income when they meet the definition of equity under EAS 25 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis. Gains and losses from these financial assets are never recycled to profit or loss. Dividends are recognized as income in the consolidated statement of profit or loss when the right to payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset.

Equity instruments designated at fair value through other comprehensive income are not subject to impairment assessment. The Group has elected to classify irrevocably its non-listed equity investments under this category.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are included in the consolidated statement of financial position at fair value with the recognition of net changes in fair value in the profit or loss.

Expected credit losses

The Company recognizes the expected credit losses for the following financial assets:

- Financial assets that are measured at amortized cost
- Investments in debt instruments that are measured at fair value through other comprehensive income.

The Company measures the expected credit losses over the lifetime of the financial asset, except for the following financial assets, which are measured as 12-month expected credit losses:

- Debt instruments that have low credit risk at the reporting date.
- Bank balances and debt instruments whose credit risk have not changed since the initial recognition.

The Company assumes that an increase in the expected credit risk is associated with a delay in debt collection for more than 30 days from the maturity date, that the financial asset has failed to pay when the debt is more than 90 days past due, and that it is not expected to pay the financial dues without resorting to liquidation of the collateral.

The expected credit losses are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted approximately to the original effective interest rate.

For receivables and contract assets, the Company applies the simplified approach in calculating expected credit losses. Therefore, the Company does not track changes in credit risk but instead recognizes a loss provision based on lifetime expected credit losses at each reporting date. The Company has established a provision matrix based on its historical experience of credit loss while adjusting for looking forward factors specific to the customers and economic environment.

The allowance for credit losses for financial assets is presented in the consolidated financial statements by deducting it from the balance of the financial asset.

Derecognition

A financial asset (as applicable, part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The contractual rights to the cash flows from the financial asset expire; or
- The Company transfers its rights to receive cash flows from the asset or has accepted an obligation to pay the received cash flows in full without material delay to a third party through a pass-through arrangement; and either (a)

the Company has transferred substantially all of the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company transfers its rights to receive cash flows from an asset or enters a pass-through arrangement, it assesses whether, and to what extent, it has retained the risks and benefits of ownership. When it neither transfers nor retains substantially all the risks and rewards of the asset, or transfers control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In this case, the Company also recognizes a corresponding liability. The transferred asset and the corresponding liabilities are measured on a basis that reflects the rights and obligations that the Company has retained

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Initial recognition and measurement

On initial recognition, the financial liabilities are designated at fair value through profit or loss, loans and facilities, suppliers, notes payables or other liabilities.

All financial liabilities are initially recognized at fair value and in the case of loans, borrowings, and credit balances, net of directly attributable transaction costs.

The Company's financial liabilities include suppliers, notes payable, other credit balances, loans, facilities including bank overdraft and other financial liabilities.

Subsequent measurement

The measurement of financial liabilities depends on their classification as shown below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities classified upon initial recognition at fair value through profit or loss.

Financial liabilities at amortized cost (loans)

The most relevant category to the Company. After initial recognition, loans and advances are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statement of profit or loss when the liabilities are derecognised and through the effective interest rate amortization process.

Amortized cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortization is recognized as a finance cost in the consolidated statement of profit or loss. This category generally applies to loans and facilities.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and recognition of a new liability. The difference in the related carrying amounts is recognized in the consolidated statement of profit or loss.

Notes receivable for undelivered units and liabilities on cheques received from customers

The Company recognizes notes receivable for undelivered units within its financial assets at the total undiscounted value of those cheques, and in return, it recognizes a liability for cheques received from customers with the same undiscounted value within its financial liabilities.

When cheques are collected before the property is delivered, the collected amounts are recognized by reducing the

balance of cheques receivable for undelivered units against the cash collected and transferring part of the liability corresponding for the cheques in the account of liabilities for cheques with the same value of the collected amounts to the account of advances from customers.

When real estate revenue is established, the receipts related to the recognized revenues are recognized by reducing the balance of cheque receivables for undelivered units with the value of the receivables related to the recognized units, closing part of the liability corresponding to the cheques in the account of liabilities for cheques of the same value.

Securitization

The Company excludes notes receivable that are sold during securitization transactions from the accounting books and recognizes the difference between the present value and the cash value received through securitization transactions within the financing expenses in the consolidated statement of profit and loss.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Finished units

Finished units are stated at the lower of cost or net realizable value. The net realizable value is estimated at the selling price under normal circumstances less the expected cost of selling expenses for that inventory, and any decrease in the selling value from the book cost is charged to the consolidated statement of profit or loss.

Inventories

Inventories are stated at the lower of cost or net realizable value, The net realizable value is estimated at the selling price in normal conditions, less the expected cost of selling expenses for that inventory.

The inventory of supplies for hotels bought since the opening of the hotel and required for operation is to be measured at fair value and the decrease of the fair value to be recorded in the consolidated statement of profit or loss.

Receivables, sundry receivables and notes receivable

Receivables and sundry receivables are stated at amortized cost less any impairment losses.

Suppliers and accrued expenses

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the suppliers to the Company or not.

Related party transactions

Related parties are represented in major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Board of Directors.

Pension scheme for workers

The Company makes contributions to the General Authority for Social Insurance scheme under the provisions of social insurance law 79 of 1975. The Company's contribution is charged to the consolidated statement of income according to the accrual basis, and according to this scheme, the Company's obligation is limited to the value of that contribution.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past

event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation. Where discounting (present value) is used, the increase in the provision due to the passage of time is recognized in the consolidated statement of profit or loss as a finance cost.

Legal reserve

Referring to the provisions of Law 159 of year 1981 and according to the Company's Articles of Association, 5% of the net profits of the year is to be transferred to the legal reserve until this reserve reaches 50% of the issued capital. The reserve is not distributable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

The Company recognizes revenues from contracts with customers by applying a five-step model as depicted within EAS no. 48:

Step 1: Identify the contract(s) with a customer. The contract is defined as an agreement between two or more parties that creates enforceable rights and obligation, and set the criteria that should be satisfied for each contract,

Step 2: Identify the performance obligations in the contract. Performance obligation is a promise in a contract with a customer to transfer to the customer either: a good or service

Step 3: Determine the transaction price. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract. If the contract contains more than one performance obligation, the Company will allocate the transaction price to each obligation at an amount reflecting the consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

- The Company satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

a) the entity's performance does not create an asset with an alternative use and the entity has an enforceable right to payment for performance completed to date

b) the entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced

c) the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.

- As for performance obligations, the Company recognizes revenues over time, if one of the above criteria is met.

- When the Company satisfies a performance obligation by transferring a promised service, it is originally established based on the contract against the amount of the contract corresponding to the performance obligation, when the amount against the contract received from the client exceeds the amount of revenue generated resulting in payments from the client (contract obligation).

- Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue and costs, when appropriate, can be measured reliably

Satisfaction of performance obligations

- For each performance obligation, an entity shall determine whether it satisfies the performance obligation over time or at a point in time, requiring professional judgement, to determine the most appropriate method to recognize revenue.

Determining the transaction prices

- The Company should determine the transaction prices related to its contracts with customers. The Company estimates the impact of any variable consideration in the contract.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Transfer of control in contract with customers

-If the Company satisfies the performance obligation at a point in time, revenue is recognized when the customer obtains a control over the asset

Significant financing component

-The Company must adjust an amount against the promised contract against the time value of money if the contract includes a significant financing component.

Revenue recognition

Real estate sales - sale of completed units

-Revenue from the sale of contracted residential, professional, commercial and administrative units is recognized when control is transferred to customers, whether these units have been fully or partially implemented at a value that reflects the expected value of the Company against those units. Revenue for these units is recognized at a point in time, net, for units over which control has been transferred to customers.

Real Estate Sales – Units Under Construction

For contracts related to real estate projects under development in the Kingdom of Saudi Arabia, revenue is recognized over time using the percentage of completion method, when the criteria for over-time revenue recognition in accordance with Egyptian Accounting Standard (EAS) 48 and its international equivalent IFRS 15 – Revenue from Contracts with Customers are met.

The Group determines the percentage of completion based on the proportion of costs incurred to total estimated project costs, in a manner that reliably reflects the progress made in satisfying the performance obligation. Revenue is recognized in the financial periods based on this percentage.

The Group reviews the estimates of total project costs and completion percentages on a periodic basis to ensure the accuracy of measurement and compliance with the recognition and presentation requirements under Egyptian Accounting Standards.

Sales of lands

The Group recognises revenue on sale of lands when the control of ownership has been transferred to the buyer which occurs when the units are actually delivered, provided the completion of utility works. Revenue from lands is recognized at a point in time for lands for which the control has been transferred to customers.

Investment revenues

Revenue from share dividends is recorded when there is right to receive it.

Finance income

Finance income is recognised as it accrues using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter year, where appropriate, to the net carrying amount of the financial asset or liability.

Income from services rendered to customers

Income arising from providing services to customers is recognised when services are rendered. Income from services provided to customers is included in the periodic yield revenues in the consolidated statement of profit or loss.

Recognition of real estate activity costs

The minutes of handing over saleable units to customers and realizing activity revenues for those units are the basis on which the activity costs related to them are recognized, which are as follows:

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Direct and indirect costs

The construction costs of the saleable units according to the payment certificates of the contractors and suppliers that are approved by the Company's department of technical affairs are recorded in "work in progress" item and the costs to be distributed to the sold units according to the following basis:

- A villa's share in the land cost and the unit's share in the land cost which were distributed based on land area of each unit to the total area of the units in the project.
- The unit's share in the actual and estimated costs that were distributed based on the contracts and invoices of each sector of units, villas and shops in each phase.
- The unit's share in the indirect actual and estimated costs which was distributed based on the direct costs of each sector in each phase.

Leases:

The Company assesses at the inception of the contract whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of a specific asset for a year of time in exchange for consideration.

The Company as a lessee

The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- **Lease liabilities:** At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term using the implicit interest rate in the lease if readily determinable, or the incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

- **Right-of-use assets:** The Company recognizes right-of-use assets at the commencement date of the lease. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received (if any) , in addition to an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

After the commencement date, a lessee shall measure the right-of-use asset at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on the lease term, if ownership of the leased asset transferred to the Company at the end of the lease term or if the Company will exercise the purchase option. Otherwise, Right-of-use assets are depreciated over the shorter of the lease term and the estimated useful lives of the assets.

-The Company elected not to apply the standard for leases of 'low-value' assets or short-term year contracts.

The Company as a lessor

The Company classifies each of its leases as either an operating lease or finance lease.

A lease is classified as a finance lease if the lease transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Finance lease: the Company recognizes assets held under a finance lease in its statement of financial position and present them as a receivable at an amount equal to the net investment in the lease

The Company shall use the interest rate implicit in the lease to measure the net investment in the lease.

The net investment in the lease comprises the payments for the right to use of the underlying asset during the lease term that are not received at the commencement date.

The Company shall recognise finance income over the lease term, based on a pattern reflecting a constant year rate of return on the lessor's net investment in the lease.

Operating lease: the Company shall recognise lease payments from operating leases as income on either a straight-line basis or another systematic basis. The lessor shall apply another systematic basis if that basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished.

All the Company's leases are currently classified as operating leases.

Impairment

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that a non-financial asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating units (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

Treasury shares

Treasury shares are recorded with the acquisition cost and deducted from the owners' equity in the balance sheet; any gain or loss proceeds of buying or selling these treasury shares are being recorded in the owner's equity.

Significant accounting judgements and estimates

The preparation of these consolidated financial statements requires management to make judgments and estimates that affect the amounts of revenues, expenses, assets and liabilities, accompanying disclosures, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Estimates and their associated assumptions are reviewed on a regular basis. Amendments to these estimates are recognized in the year during which these estimates are reviewed.

Significant judgements and estimates that have a significant effect on the consolidated financial statements of the Company are discussed below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Judgements

Revenue recognition of selling completed units and lands

When making its judgements, the management took into consideration the detailed requirements of recognizing revenue arising from selling goods as stated in Egyptian Accounting Standard No. (48) "Revenue from Contracts with Customers", including deciding whether significant risks and rewards have been transferred.

Estimates

Impairment of receivables and other receivables

An estimate of the collectible number of receivables, notes receivables and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

Useful lives of fixed assets

The Company's management determines the estimated useful lives fixed assets for calculating amortization. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the estimated useful lives and amortization method on a regular basis to ensure that the amortization method and year are consistent with the expected pattern of future economic benefits arising from these assets.

Taxes

The Company is subject to income tax imposed in Egypt. Significant judgements must be made in order to determine the total current and deferred tax provisions. The Company based its provisions upon reasonable estimates, taking into consideration the potential consequences of inspection operations conducted by Egyptian tax authorities. The amount of this provision is based on a number of factors including experience in previous tax inspections and varying interpretations of tax regulations by the Company and the tax authority responsible. Such differences in interpretation may arise on several topics in accordance with the circumstances prevailing in Egypt at the time.

Deferred tax assets for unused and retained tax losses are recognized so that they are expected to be offset by taxable profits that could be covered using such losses. Significant management judgements must determine the amount of deferred tax assets that could be recognized, based on the potential timing and level of future taxable profits, besides future tax planning strategies.

Income tax

Income tax is calculated in accordance with the Egyptian tax law.

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the tax authority.

Deferred income tax

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the financial position (accounting base) using the applicable tax rate.

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Current and deferred tax shall be recognized as income or an expense and included in the consolidated statement of profit or loss for the year, except to the extent that the tax arises from a transaction or event which is recognized, in the same or a different year, directly in equity.

Borrowing

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within a year are classified as current liabilities, unless the Company has the right to postpone the settlement for a year exceeding one year after the financial position date, then the loan balance should be classified as long-term liabilities.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial year of time to get ready for their intended use or sale are capitalised as part of the cost of the assets. All other borrowing costs are expensed in the year in which they are incurred. The borrowings costs are represented in interest and other finance costs that Company pay to obtain the funds.

Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the consolidated statement of income in the financial year in which these expenses were incurred.

Cash and cash equivalent

For preparing the consolidated cash flow statement, cash and cash equivalent consist of cash at banks and cash on hand, time deposits and treasury bills that will be due within three months and bank cheques under collection, payable upon request which are considered a complementary part of the Company's assets management system less bank overdrafts.

Dividends

Dividends are recognized as an obligation for the year when the general assembly issues the decision to make distributions.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the separate financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

2 BASIS OF PREPARATION FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE SIGNIFICANT ACCOUNTING POLICIES APPLIED (CONTINUED)

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting year.

For fair value disclosures, the Company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3 - Segment information

The major segments in the Company are real estate, tourism and periodic-yield income sectors (Note 40). Profit and investments related to other segments are currently insignificant and not required to be reported in accordance with accounting standard No. 41 and are not disclosed separately in the consolidated financial Statement.

Impairment test for goodwill

The Group performed its annual impairment test for goodwill in December 2025. The recoverable amount of goodwill has been determined based on a value in use calculation of the cash generating unit (CGU), using cash flow projections approved by senior management covering a 20-year period. The pre-tax discount rate of 33.9% applied to cash flow projections beyond the 10 years are extrapolated using a terminal growth rate of 5%. The Group has also performed a sensitivity analysis by varying these input factors by a reasonable possible margin.

Key assumptions used in value in use calculations and sensitivity to changes in assumptions

- ▶ Annual revenue growth rate during the forecast period
- ▶ Discount rate
- ▶ Long-term growth rates (terminal value) used to extrapolate cash flows beyond the forecast period

Annual revenue growth rate during the forecast period

Annual revenue growth rate assumptions are based on average growth rates achieved in the year preceding the start of the budget period. These are increased over the budget year for anticipated market conditions.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

9 GOODWILL (CONTINUED)

Discount rates

Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC considers both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and the timing of the future tax flows to reflect a pre-tax discount rate.

Growth rate estimates

Assumptions are based on published industry research.

Sensitivity to changes in assumptions

With respect to management's assessment of value in use of the cash generating unit, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the CGU to materially exceed its recoverable amount.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

*The Board of directors approved the liquidation of Hill /TMG for Constructions and Projects Management. The liquidation process is still in progress through judicial liquidators.

** Although the Company owns less than 20% of certain companies, the management considers classifying this investment within investments in associates due to the significant influence the Company has over these companies, in addition to the Group's representation in the company's Board of Directors.

***Although the company owns 50% or more for these companies, the management classified this investment within investments in associates due to existence of joint control.

****The capital of Alexandria Tourism Development and Investment Company consists of two categories of shares: preferred shares, which allow their holders to receive 1.65 ordinary shares' worth of profits, and ordinary shares. The group owns 40% of the company's capital, all of which are ordinary shares.

The group provides services to the company, including licensing work, in exchange for a percentage of the project's revenue. The amount received for the services provided by the group is deducted from the distributed profits.

22 CAPITAL

The Company's authorized capital amounts to LE 50,000,000 (Fifty million Egyptian pounds) and the issued and paid-up capital amounted to LE 6,000,000 (Six million Egyptian pounds) of LE 10 (Ten Egyptian pounds) par value each, on 3 April 2007.

According to the Extraordinary General Assembly Meeting dated on 6 October 2007, the Company's authorized capital was increased by LE 29,950,000,000 to become LE 30,000,000,000 and the issued and paid-up capital was increased to become LE 18,152,035,500 divided over 1,815,203,550 shares of LE 10-par value each, through shares swap with the subsidiaries. It was recorded in the commercial register on 28 October 2007.

According to the Extraordinary General Assembly Meeting dated on 28 October 2007, the Company's issued, and paid-up capital was increased through a public and private placement to become LE 20,302,035,500 divided over 2,030,203,550 shares. The increased amount of LE 2,150,000,000 was paid with a premium share amounted to LE 1,6 per share by total premium amount of LE 344,000,000, recorded in the commercial register on 25 November 2007.

According to the Extraordinary General Assembly Meeting dated on 24 March 2010, the issued capital was reduced by the treasury stocks amounted of LE 169,720,520-par value, and 1 year has elapsed since its acquisition. Issued capital becomes LE 20,132,314,980 (Twenty billion and one hundred and thirty-two million and fourteen thousand and nine hundred and eighty pound) distributed over 2,013,231,498 shares. It was recorded in the commercial register on 18 May 2010.

The Extraordinary General Assembly Meeting dated 30 September 2011 approved to increase the issued and paid-up capital through issuing bonus shares, deducted from the retained earnings, to become LE 20,635,622,860 dividends over 2,063,562,286 shares. It was recorded in the commercial register on 24 May 2011.

According to the decision of the extraordinary general assembly dated 26 March 2025, the issued capital was reduced by the value of the treasury shares, whose nominal value EGP 29,085,000, so that the issued capital became EGP 20,606,537,860 distributed over 2060653786 shares and this was recorded in the commercial register on 25 May 2025.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

23 LEGAL RESERVE

Legal reserve amounted LE 472,261,033 at 31 December 2025 represented in the transferred amount of the share's premium resulting from the company capital increase amounting LE 344,000,000, with LE 1,6-share premium per share. Part of the premium amounted to LE 185,880,702 was used to cover the IPO expenses, and the remaining balance of LE 158,119,298 was transferred to the legal reserve, as well 5% of the realized profits according to the law.

24 GENERAL RESERVE

The General Reserve balance amounted to Nil at 31 December 2025, compared to EGP 61,735,404 at 31 December 2024. The entire other reserve balance of EGP 61,735,404 was utilized pursuant to the resolution of the Extraordinary General Assembly dated 26 March 2025, to offset a portion of the value of treasury shares that were written off in May 2025. The utilized General Reserve balance is EGP 25,747,613, resulting from share swaps pursuant to the resolution of the Extraordinary General Assembly held on 6 October 2007, to form a General Reserve with the difference in the increase resulting from the exchange of the company's shares with its subsidiaries, in addition to EGP 35,987,791, representing the difference between the nominal value and the book value of the treasury shares that were written off, pursuant to the resolution of the Extraordinary General Assembly dated 24 March 2010, to add the difference to the General Reserve.

25 OTHER NON-CURRENT LIABILITIES

	31 December 2025	31 December 2024
	LE	LE
Notes Payable	5,167,620,391	2,839,781,652

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

39 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit for the year attributable to the ordinary shareholders of the Company by the weighted average number of shares outstanding during the year.

	31 December 2025	31 December 2024
	LE	(Restated) LE
Profit for the year	14,383,890,306	9,025,066,065
Weighted average number of shares outstanding during the year	<u>2,060,653,786</u>	<u>2,061,905,148</u>
Basic and diluted earnings per share	<u>6.98</u>	<u>4.38</u>

* Since there are no diluted instruments outstanding, basic and diluted earnings per share are identical.

40 RELATED PARTIES

Related parties represent major shareholders, directors and key management personnel of the Company, and also entities controlled, jointly controlled or which the company has significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Board of Directors.

To accomplish the Company's objectives, the Company deals with the related parties by the same terms adopted with the other parties through delegating the implementation of some assignments and contracts in the projects for subsidiaries, as well as paying some amounts on behalf of those companies and settling some amounts paid by or to other parties. The balances resulting from these transactions are shown within the assets and liabilities in the consolidated statement of financial position. Alexandria Company for Construction S.A.E is the main contractor for the projects of the subsidiaries according to the contracts signed with the companies.

The amount paid to senior executives charged to general and administrative expenses in the consolidated statement of profits of losses amounted to LE 483.3 million, other than what was capitalized within the work under progress. Non-executive board members receive LE 3.98 million, in addition to the amounts disbursed to companies or offices in which some non-executive members of the Board of Directors contribute in return for performing some advisory, legal and financial services to the group of companies, amounting to LE 29.8 million in exchange for these services.

Alexandria for Construction Company was presented among related parties, due to the presence of joint members in the senior management of the two companies.

TMG Company for Real Estate and Tourism Investment – a company owned by some of the Board Members of Talaat Mostafa Holding Group – owns, approximately, 43.22% of the company shares.

42 FINANCIAL RISK MANAGEMENT POLICIES AND OBJECTIVES

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk.
- Market risk.
- Liquidity risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Board of Directors of the Company has full responsibility for the establishment and oversight of the Company's risk management framework. The Company's senior management is responsible for setting and monitoring the risk management policies.

The Company's current financial risk management framework is a combination of formally documented risk management policies in certain areas and informal risk management policies in other areas.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk principally from its receivables from customers, notes receivables, prepaid expenses, sundry receivables, other receivables, due from related parties and from its financing activities, including deposits with banks and financial institutions.

Receivables and notes receivable

The Company has entered contracts for the sale of residential and commercial units on an instalment basis. The instalments are specified in the contracts. The Company is exposed to credit risk in respect of due instalments. However, the legal ownership of residential and commercial units is transferred to the buyer only after all the instalments are settled. In addition, due instalments are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer, the demographics of the Company's customer base, including the default risk of the industry and country, in which customers operate, has less influence on credit risk. The Company earns its revenues from many customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

42 FINANCIAL RISK MANAGEMENT POLICIES AND OBJECTIVES (CONTINUED)

Other financial assets and cash deposits

With respect to credit risk arising from the other financial assets of the Company, which comprise bank balances and cash, financial assets at amortised cost, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Credit risk from balances with banks and financial institutions is managed by the Company's finance department. The Company limits its exposure to credit risk by depositing balances with local banks of good reputation. Given the profile of its bankers, the Company's management does not expect any counterparty to default to meet its obligations.

Due from related parties

Due from related parties relates to transactions arising in the normal course of business with a minimal credit risk, with the maximum exposure equal to the carrying amount of these balances.

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Company's income. Financial instruments affected by market risk include interest-bearing loans, and interest-bearing deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company does not hold or issue derivative financial instruments.

Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates and interest-bearing time deposits. Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

Since the interest rate on most of the financial liabilities and loans due by the Group is a floating interest rate, accordingly, the effect of the change in the interest rate is displayed on the financial statements of the Group.

Equity price risk

The Group's exposure to equity securities price risk arises from an investment held by the Group and classified as at fair value through profit or loss (FVTPL). The Group manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's senior management reviews and approves all major equity investment decisions.

At the reporting date, there is no material impact resulting from the exposure to risks for investments in shares at fair value listed on a stock market.

c) Liquidity risk

The cash flows, funding requirements and liquidity of the Company are monitored by the Company's management. The Company's objective is to maintain a balance between continuity of funding and flexibility using bank borrowings. The Company manages liquidity risk by maintaining adequate reserves and borrowing and facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Company currently has sufficient cash on demand to meet expected operational expenses, including the expenses of financial liabilities.

On July 1, 2025, the Arab Company for Urban Projects and Development sold a plot of land with an area of 2.1 million square meters in the Madinaty project for EGP 67.12 billion to a joint venture company with an investor holding a 24.5% stake, for a value of EGP 16.9 billion. The valuation was determined by real estate appraisers accredited by the Financial Regulatory Authority and the Central Bank of Egypt, appointed by the investor. The valuation was approved by the investor, who paid its stake accordingly. The Group did not recognize any revenue in the consolidated financial statements as of December 31, 2025, in accordance with Egyptian Accounting Standards.

Talaat Mostafa Group Holding Company "TMG Holding" S.A.E

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2025

45 ADJUSTMENTS ON THE FAIR VALUE FOR THE ASSETS AND LIABILITIES ACQUIRED ON THE ACQUISITION OF LEGACY HOTELS AND TOURISM PROJECTS

During the fiscal year ended 31 December 2024, Talaat Moustafa Holding Group indirectly acquired and gained control of Legacy Hotels and Tourism Projects Company that owns the historical hotels. The acquisition was accounted for based on the temporary value allocated to the acquired company's assets and liabilities as of the acquisition date.

An intangible asset of EGP 4,056,516,092 was also recognized during the business combination process related to the acquisition of Legacy. The intangible asset arose from contractual and legal rights in exchange for one of the current shareholders of Legacy transferring to one of the subsidiaries of Talaat Moustafa Holding Group the right to manage and financially consolidate Legacy Company if Talaat Moustafa Group retains not less than 39% of Legacy's capital.

In exchange of the right, an amount of USD 100 million will be paid to one of the shareholders in four equal annually instalments starting from 2025 until 2029, to be paid by a subsidiary of Talaat Moustafa Group. The legal right pertains only to the subsidiary of Talaat Moustafa Group and Talaat Moustafa Holding Group company (Parent Company) only.

Fair Value adjustments

During the period ended 30 June 2025, the management determined the fair value of the assets and liabilities at the date of the acquisition and that through the 12 months from the acquisition date (measurement period) as per Egyptian accounting standard number (29) business combinations, and the cost of acquiring the intangible asset was considered as a part of the cost of the acquisition that resulted the following adjustments on the temporary value and the assets acquired:

	Profits resulting from the consolidation
	LE
Total fixed assets of hotels	57,588,309,937
Projects under progress (related to hotels)	202,737,260
Operating working capital	35,521,449
Operating working capital for hotel activities from 1-7-2023 to the date of acquisition (resulting profits for the period from 1-7-2023 to the date of acquisition)	<u>1,775,088,022</u>
Net asset value as of the acquisition date	59,601,656,668
Less: purchasing price (date of acquisition)	<u>(61,883,084,738)</u>
Goodwill	<u>2,281,428,070</u>

Accordingly, the comparative figures for the fiscal year ended 31 December 2024 has been adjusted to reflect the fair value of the acquired asset as shown below:

Statement of financial position	31 December 2024		
	Balance before adjustments	Adjustments	Balance after adjustments
	LE	LE	LE
Intangible Assets	4,100,364,530	(4,056,516,092)	43,848,438
Goodwill	10,289,353,903	2,454,102,773	12,743,456,676
Retained Earning	47,493,595,935	(1,698,008,412)	45,795,587,523
Foreign currency translation reserve	1,071,775,265	*95,595,093	1,167,370,358

*The comparative figures resulting from translate the foreign companies were adjusted due to change in the value of the acquired assets and liabilities.
